Attorney Docket No.: Q77546

In compliance with the concise explanation requirement under 37 C.F.R. § 1.98(a)(3) for foreign language documents, Applicant encloses herewith a copy of a Search Report from a foreign patent office in a counterpart application citing such documents, together with an English-language version (if not already included) of at least that portion of the Search Report indicating the degree of relevance found by the foreign patent office. In addition, concise statements of relevance for certain ones of the documents being submitted are found in the Background discussion of the above-identified application.

Also enclosed is a copy of the International Preliminary Examination Report (without translation), indicating, on the fourth page, that the PCT application was found to be novel and to have an inventive step over the references considered in that proceeding.

The submission of the listed documents is not intended as an admission that any such document constitutes prior art against the claims of the present application. Applicant does not waive any right to take any action that would be appropriate to antedate or otherwise remove any listed document as a competent reference against the claims of the present application.

The USPTO is directed and authorized to charge all required fees, except for the Issue Fee and the Publication Fee, to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account. A duplicate copy of this paper is attached.
